Overall Comment: "This Company and product are not only a great addition, as well as great partners. They worked with us throughout the evaluation process and even stopped threats for our clients proactively. I cannot say enough good things about them and their staff. We have been able to meet our clients needs in a much more efficient manner with the assistance of ThreatX"

Most of the issues we have had has been a result of expedited and rushed setups due to clients being reactive over proactive. However they do their absolute best to accommodate.
